**1. Your Climate Adventure Begins**

Saturday 2nd Oct - 9:30 to 17:30

Kilmore Diocesan Pastoral Centre, Cavan Town

A full day session to set the context and provide a setting for the rest of the course. We will also explore how you might develop a project that could be eligible for LEADER funding.

**3. Community Resilience**

Wed 13th Oct - 18:30 to 21:30 - Kilmore Pastoral Centre

This session sets the context for building healthy and sustainable communities – backed by stronger and more resilient local economies.

**5. Site Visit Cloughjordan Ecovillage**

Saturday 23rd Oct - 18:30 to 21:30 - Cloughjordan

Cloughjordan Ecovillage is Ireland's leading sustainable community project. On this full day site visit, you will learn about the history of the Ecovillage and visit some of its sustainable enterprises and LEADER funded projects.

**7. Managing Energy and Transport**

Wed 3rd Nov - 18:30 to 21:30 - Kilmore Pastoral Centre

In this session we examine energy use and transportation and their related opportunities for your community.

**Google Classroom**

Online sharing through Google Classroom

All participants must have a working Gmail address to access Google Classroom.

**2. Let's Talk Climate Action**

Wed 6th Oct - 18:30 to 21:30 - Kilmore Pastoral Centre

It is predicted that over the next thirty years we will see more change than any other period in recorded human history. Learn about climate change and the challenges, opportunities and actions local communities can take towards becoming climate smart and resilient.

**4. Water & Climate Change**

Wed 20th Oct - 18:30 to 21:30 - Kilmore Pastoral Centre

How does your community consider water as a resource, and what are the implications of climate change on the availability of water and access to water in the future?

**6. Waste & the Circular Economy**

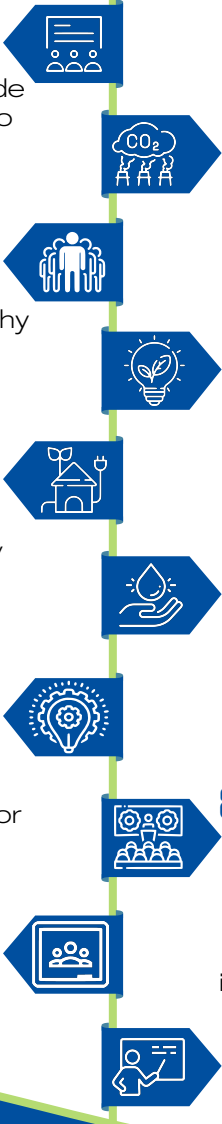

Wed 27th Oct - 18:30 to 21:30 - Kilmore Pastoral Centre

The strategies we use to make and use goods have a direct relationship to the types and quantity of waste produced. A Circular Economy emerges when these two issues are addressed through sustainable practices.

**8. Local Food & Sustainable Land Use**

Wed 10th Nov - 18:30 to 21:30 - Kilmore Pastoral Centre

The issues of food waste, food miles, local food economies and sustainable diet offers us the opportunity to build community resilience, improve wellbeing and drive real climate action.
