

**LEADI**

**TOOST**

The "LEADER East" is located on the eastern side of the province of Utrecht, in the middle of the Netherlands.

Villages and cities (with Utrecht and Amersfoort being the largest) alternate with agricultural areas, forests, nature reserves, estates, rivers and canals. The great diversity of the area and its proximity to urban areas offer economic opportunities to bring city and countryside closer together, as well as supply and demand of products and services produced in rural areas.
